Cook Legacy eNews is an email newsletter intended to provide our clients and friends with news and insight. Our focus is to provide helpful tips and useful guides on the issues we encounter most frequently. Please let us know if you would like to see a specific topic covered.

COOK LEGACY AT POWER-GEN INTERNATIONAL

We've all received about 1000 of these Power-Gen emails, and I'm now adding to the noise.

On Wednesday at 9:30 a.m., I'll be on a panel to discuss the upcoming 316(b) rule. The impending rule has complex implications for plant operators around the US. I'll be talking about technical innovation in intake systems and trends across those technologies.

I'm presenting as a part of panel of industry experts, including:

- Peter T. Belmonte, P.E.
Environmental Resources Management
- John Burnett, M.S.
Practice Leader, Professional Associate, Sr. Environmental Scientist
HDR
- Ryan Cook
President
Cook Legacy Water & Energy
- Bryan J. Hannegan, Ph.D.
Vice President, Environment and Renewable Energy
Electric Power Research Institute
- Manitia Moultrie
Associate/U. S. Power Sector Leader
Golder Associates Inc.
- Stephen E. Petron, Ph.D.
Vice President & Global Director, Natural Resources
Planning & Management/Environmental Services
CH2M HILL
- Kurtis Schlicht
Environmental Resources Management

If you're interested, please join us, or [send me an email](#) and we'll connect.

For those of you engaged in any Transmission and Distribution work, Austin Hall from Mod-Power will also be available to meet at Power-Gen. In case you haven't heard of them yet, Mod-Power builds modular substations.
